

Innovative Composite Solutions

For all Kinds of Industries

Better use BÜFA

BÜFA Composite Systems is Europe's leading manufacturer of Speciality Polyester Resins and the problem solver for the composite industry.

BÜFA offers innovative, sustainable products and system solutions, complemented by outstanding service as well as machine and application expertise.

Unique combination of resins and process technology from BÜFA Tec Machines.

- **Complete Range** for the Composite Industry
- **Engineer Consulting:** Expert advice on products and process technology
- **Technical Support:** Support during pre-series production
- **Trusted/Proven Quality:** Standard portfolio in stock, customized products on request, quality 'Made in Germany'
- **BÜFA Added Values:** Modern laboratories for fast formulation development, quality standards and checks – reliable batch to-batch quality, short lead time and high availability.

Production Site in Germany

Laboratory – Develop & Analyze

Production – Produce & Package

Logistics – Store & Deliver

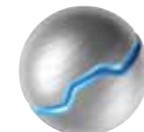

Our Complete Range for the User of Composite Materials

UP- & VE-Resins, Epoxy Resin Systems

Gelcoats & Topcoats

Bonding Pastes

Pigment Pastes

Sustainable Products

Conductive Products

Initiators

Release Agents, Additives & Ancillaries

Reinforcements, Core & Non-woven Materials

Fire Retardant Systems

Tooling Systems

Foaming Resin Systems

BÜFA Tec Machine Technology

Portfolio

Performance across Europe

With eight dedicated BÜFA distribution companies and eight established long-term distribution partners across Europe, BÜFA Composites ensures an internationally reliable service network – including proven practical know-how and expert local support. This guarantees seamless coverage across the European market. With AOC Formulations, we are the best fit for your requirements. Together we supply you around the world.

Sustainable Products

Sustainability has been a core part of our corporate strategy for over 20 years. We develop Polyester Resin Specialties that meet the highest quality standards while protecting people and the environment through the use of sustainable raw materials and environmentally friendly technologies – including advanced Fire Retardant Systems, Conductive Systems and Polyester Resins with reduced styrene content. In this way, we support composite manufacturers in designing and producing durable, responsibly manufactured composite components.

Innovative Products and System Solutions for

- Railway
- Transportation
- Automotive
- Wind Energy
- Marine
- Cruiser
- Swimming Pools
- Sanitary
- Building & Construction
- Tanks & Pipes
- Sport & Leisure
