## Gelcoats and Topcoats

BÜFA®-Gelcoat-ISO-3000

### Weathering results according to EN ISO 4892-2

The BÜFA range includes a multitude of gelcoats for a wide range of application areas. As Europe's leading provider of gelcoats, BÜFA invests continuously in the development of its product range.

BÜFA®-Gelcoat-ISO-3000 is suitable for a wide range of applications where brilliant colours with excellent UV resistance are required – and great value for money!

### Your product benefits

- Unique colour accuracy
- Withstands intense weathering, with high gloss retention
- BÜFA®-Gelcoat-ISO-3000 is REACH compliant

### Benefits in product usage

- Faster and more cost-efficient work
- No need for additional rework
- Manual application (BÜFA®-Gelcoat-ISO-3000): Due to the higher processing viscosity (compared to 3000-S) it can be applied in one work step
- Spray application (also with specific, suitable systems from BÜFA Tec): Good stability, no pigment separation

### Processing methods

- Manual and spray applications
- Available qualities for gelcoats and topcoats
